Connecting People, Machines, Advanced Materials & Technology

Discover Global Markets International Executive Program: Growth Opportunities in Intelligent Manufacturing

Meet Virtually with Leading Smart Technology Companies from around the United States

The U. S. Department of Commerce's Discover Global Markets: Growth Opportunities in Intelligent Manufacturing is a dynamic 3-day business development matchmaking forum focused on bringing together international executives across multiple advanced manufacturing/smart technology industries, including transportation infrastructure, automotive technology, and energy storage.

Through participation in this virtual matchmaking forum, you will have the opportunity to explore new business partnerships with U.S.-based CEOs/presidents, sales and supply chain representatives and business development managers who are seeking to expand their international distribution and/or develop joint venture opportunities.

U.S. products and services of interest may include manufacturing machinery, composites, electric and autonomous vehicles, next generation batteries, energy storage solutions, automation products, supply and security solutions, wearables, sensors and digital services, among others.

Learn About Participating U.S. Companies With Whom You Can Schedule Meetings*

Additional details about participating U.S. companies from the following sectors, including products, end users, and U.S. state, can be found by visiting tiny.cc/dgm20companies

*Please check this page frequently. New companies are being added regularly and this list is not all-inclusive.
